Now that you’ve had a chance to participate in a forum on this issue, we’d like to know what you think. Your opinions, along with those of thousands of others who participated in these forums, will be reflected in a summary report that will be available to all citizens, including those who took part in the forums, as well as officeholders, members of the news media, and others in your community.

1. Do you agree or disagree with the statements below?

   a. We must ensure that the Social Security program continues to provide a safety net for the nation’s elderly.

   b. People would reap a much better return on their investments if they controlled their own retirement accounts.

   c. Social Security may once have made good economic sense, but we simply can’t afford it any more.

   d. The program strayed too far from its original intent when it was expanded to include benefits for people with disabilities.

   e. The government has taken far too much responsibility for the welfare of its retired citizens.

   f. The Social Security program should be overhauled to take into account the fact that Americans are living much longer healthier lives today.

2. Do you favor or oppose each of these actions?

   a. We should raise payroll taxes to keep the system solvent, EVEN IF this would place a heavier burden on today’s workers.

   b. We should redesign the Social Security system to provide more benefits for older retirees who need them and less for the well-to-do, EVEN IF that undermines near-universal support for the system.

   c. We should forbid the government to borrow from the Social Security Trust Fund, EVEN IF that makes it harder to balance the federal budget.

   d. Employers should do more to retain and hire older workers, EVEN IF that makes it harder for younger workers to find good jobs.

(Question 2 continued from previous page.)

e. We should raise the age at which workers become eligible for Social Security to 70, EVEN IF this becomes a hardship for people who do hard physical labor.

f. We should phase out Social Security and replace it with a privatized system of retirement investment and savings, EVEN IF many people who fail to save for their retirement will be left in poverty at the end of their working lives.

g. The government should provide all children with $3,000 savings accounts, which would grow to substantial sums when accessed at retirement, EVEN IF such a plan adds to the federal debt in the short run.

h. We should return the program to its original intent, which was to benefit the elderly, EVEN IF this means cutting off funds to many younger, disabled Americans who now depend on Social Security.

i. Community agencies and families should be asked to do more to help needy retirees, EVEN IF this provides only hit-or-miss protection for the elderly.
